CAREER OBJECTIVES

To work in a challenging position in an esteemed organization to enable my career prospects and aspirations in Software development world through provision of excellent services to my employer and clients while upholding honesty,competence and integrity in my position of work.I am an energetic,ambitious and goal oriented individual who has developed a mature and responsible approach to any task that I undertake,or situation that I am presented with.

As a graduate with a healthy amount of experience in frontend development,I am excellent in working with others to achieve a certain objective on time and with the desired excellence.

ACADEMIC QUALIFICATIONS

2021-2022-MORINGA SCHOOL

Diploma in Software Development

Self Initiated Learning(Conferences,Webinars,Techshops,Youtube,Online Courses,Mentors)

Graphics Design

UI Design

UX Design

Figma

Machine Learning

WORK EXPERIENCE

MANCHAM RESORT

I worked for this Resort's website to help their customers order food online and get it delivered to them in a timely manner. I handled the website's UI Design, UX Design and Eventually the full frontend bit. Here is a link to the website. <https://meshackgit.github.io/Mesh-food/>

KENZO-SPA

I have also designed and fully coded the Kenzo-Spa Website Landing Page, I designed it as well here is a live link to the landing page. <https://meshackgit.github.io/Kenzo-Spa/>

CSS CONTEST

I have participated in a css styling contest where I created a phenomenal css hover effect on the website background achieving awesome colors. Here is a link to the website. <https://meshackgit.github.io/Hover/>

JAVASCRIPT GAMES

I've built a small Javascript color game and added quite a number of skills in it and here is the link to the game. <https://meshackgit.github.io/Color-game/>

MUSIC WEBSITE

I created a music website landing page for clients to explore. Here is the link. <https://meshackgit.github.io/Reach-Music.io-portfolio.com/>

PORTFOLIO

Here is my Github current frontend developer portfolio with training projects and other pro projects. Here is the link. <https://github.com/Meshackgit>
